

Registry of Interpreters for the Deaf, Inc.***Description of RID Certifications***

The certificates described below are an indication that the interpreter or transliterator was assessed by a group of professional peers according to a nationally recognized standard of minimum competence. The individual's performance was deemed to meet or exceed this national standard.

RID Certificates are recognized as valid certificates provided the interpreter/transliterator meets all requirements of membership including participation in the Certification Maintenance Program. All interpreters and transliterators are required to adhere to the RID Code of Ethics governing ethical behavior within the profession. Violations of the Code of Ethics could result in a complaint filed against the interpreter/transliterator through the RID Ethical Practices System.

The RID National Testing System (NTS) strives to maintain adherence to nationally recognized testing industry standards of validity, reliability and equity. As a result, an independent psychometrician (test development expert) is retained by RID and oversees test development and revision processes. RID maintains affiliation with the National Organization for Competency Assurance (NOCA), the entity that sets national criteria for validity, reliability and fairness in testing and credentialing.
